REALKINETIC

YOUR POTENTIAL REALIZED

# Distributed Trace Context Community Group

W3C®

<https://www.v3.org/community/trace-context/>

<https://github.com/v3c/distributed-training>

This specification defines formats to pass trace context information across systems. Our goal is to share this with the community so that various tracing and diagnostics products can operate together.

Pick something. Use structured logging + data pipeline to pass off (and transform if necessary) to tracing aggregator

# Distributed Trace Context Community Group
